

Real Estate For Sale on the OBX Where?

Mobile

A location based smartphone app that generates leads and puts you in the palm of interested real estate buyers and sellers while keeping you relevant and visible to your existing clients. Get new leads & keep old ones, all without learning anything new or breaking the bank. OBXwhere.com runs on your smart phone's web browser to provide both buyers & sellers easy access to MLS data and, most importantly, to bring them back to you.

Desktop

OBXwhere on your desktop! Optimized to be deployed through our Facebook App to your Facebook 'Page' or your personal web site - your choice. Perfect for use while in the office or at home. The Desktop version of OBXwhere places our tools and real estate IDX feed on your, and your client's, desktops.

Pro (Mobile + Unlimited Desktop)

A bundle of both our Mobile & Desktop products with the added bonus of our Customer Analytics/Lead Capture features thrown in. No matter where you, or your clients, happen to be (or how you browse), have complete access to OBXwhere. Mobile and Desktop versions are automatically synched for seamless free migration between the two. In addition to the Customer Analytics/Lead Capture feature, the Pro version also allows for deployment on unlimited agent web sites & Facebook pages.
